Article wrapper

Here's a `methodsynopsis` in a `classsynopsis`:

<classsynopsis>
<ooclass>Foo</ooclass>
<methodsynopsis>`public static double getQuote`
<methodparam>String`symbol`</methodparam>
<methodparam>double`price`</methodparam>
</methodsynopsis>
</classsynopsis>

Here's a `methodsynopsis` *outside* a `classsynopsis`:

<methodsynopsis>`public static double getQuote`
<methodparam>String`symbol`</methodparam>
<methodparam>double`price`</methodparam>
</methodsynopsis>
